Light Weight

CAN LIFT DURABLE

Air Suspension

FOUR CORE FEATURES

HI-DARO AXLE

- TRAILER IS SPECIAL
- BRAKE SMOOTHLY
- SAFETY AND STABILITY
- WEAR-RESISTING

HI-DARO AXLE

LIGHTER WEIGHT

The air bag is used instead of the traditional leaf spring structure, the weight is lighter, which is beneficial to reduce the dead weight of the vehicle and save fuel consumption.

HI-DARO AXLE

GOOD SHOCK ABSORPTION EFFECT

Air spring damping performance is better, improve ride comfort, protect cargo safety.

HI-DARO AXLE

LESS NOISE

With air as the medium, less friction, almost zero noise in the process of use.

HI-DARO AXLE

FLEXIBLE LIFTING

Can achieve single or multi-axis lifting, reduce tire loss; The height of the vehicle can be adjusted through the lifting of the vehicle to improve the loading and unloading efficiency.
